Malama Your Neighborhood

**Proof Positive**

By Doug Harper, executive director of Malama Manusula

Malama is a community organization of business, property owners and neighbors that has been a partner in the streetscape project for over 20 years. We are also a member of the Technical Council of the Complete Kitchen and Bath Committee, which is a group of businesses that work together to improve the environment and safety of our community.

Our goal is to reduce the amount of trash that ends up in our streets and storm drains, and to improve the overall cleanliness of our neighborhood. We do this by working together to remove trash and debris from our streets and storm drains.

Each month, we host a "Clean Up Day" where volunteers come together to clean up our neighborhood. These events are open to all members of our community, and we encourage anyone who is interested to participate.

We also work with local businesses to promote recycling and waste reduction. By partnering with local businesses, we are able to create a healthy and vibrant community.

Join our community and be a part of the positive change that is happening in Malama. Together, we can make a difference and create a cleaner, safer neighborhood for all to enjoy.
